

# Innovative & Proven Packaging Solutions

Strong packaging enhances your commercial look, reduces transportation costs, and helps achieve sustainability goals.

Color Management | Production Samples | Quality Assurance | Carbon Reporting

## We engineer 350+ innovative packaging projects every year.

OIA Global's award-winning packaging solutions and account management team guides customers from the conceptual stage toward polished, supply-chain-ready product packaging.

We stretch across the entire supply chain to produce packaging that complies with regulatory, commercial, recyclability, and waste standards. The team can design innovative projects for both transportation and retail scenarios.

- ✓ Custom packaging designs and print treatments
- ✓ Quality compliance eliminates production risks
- ✓ Dedicated account managers handle multiple packaging projects simultaneously
- ✓ Prototypes help your brand visualize new packaging structures
